EDUCATIONS

University School of Automation and Robotics | New Delhi

Bachelor of Technology

• **Specialization:** Industrial Internet of Things (IIoT)

Aug 2023

CGPA: 7.85

Hamdard Public School | New Delhi

Class XII

Apr 2022 - Mar 2023

Percentage: 81.6

WORK EXPERIENCES

Research Intern

CSIR – NIScPR | 🌐 Website

Jul 2026 - Aug 2026

On-site • New Delhi

- **Developed** a **ConvMixer-based Indian Sign Language recognition model** achieving **92.87% accuracy**, through preprocessing, augmentation, feature extraction, and classification.
- **Researched** Continuous Indian Sign Language Recognition (CISLR) by analyzing CNN, RNN, GRU and ConvMixer architectures.
- **Evaluated** public ISL datasets and existing methodologies, identifying key challenges in sign-language recognition.

Technologies / Skills Used: AI, ML, CNN, DL, Research

PROJECTS

Traffic Hive | 🌐 Website

- **Developed** an **AI-powered traffic management system** to optimize signal timing and monitor violations across complex intersections.
- **Achieved** a simulated congestion reduction of **30%** in controlled scenarios via real-time optimization algorithms.

Technologies / Tools Used: AI, REST API, React, Node.js

Sign Language Predictor | 🌐 Github

- **Built** a **sign language gesture recognition system** using deep learning and computer vision techniques.
- **Designed** a patch-based ConvMixer architecture to extract spatial features from sign-language images.
- **Achieved 92.87% test accuracy** across multiple sign-language gesture classes.

Technologies / Tools Used: AI, ML, DL, CNN, ConvMixer, CV, Keras, TensorFlow

Smart Sanitation | 🌐 Website

- **Built** an **AI-driven sanitation management platform** to track cleaning and ensure timely maintenance across urban zones, improving hygiene and efficiency.
- **Enhanced** operational planning by analyzing sanitation data and optimizing resource allocation.

Technologies / Tools Used: AI, REST API, Node.js, React

SKILLS

Programming Languages:

Java, Python, JavaScript

Technical Skills:

Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Database Management, Software Development, Machine Learning, Deep Learning

Frameworks & Libraries:

React, Node.js, Tailwind CSS, CNN, Keras, TensorFlow

Soft Skills:

Leadership, Teamwork, Problem Solving, Time Management

Tools & Platforms:

Git, GitHub, MySQL, Claude, MS Office, Excel

POSITION OF RESPONSIBILITY

Founder

ACTS (Association of Computing Technology and Sciences)

- **Founded** the technical club at the campus.
- **Organized** and **hosted 3 national-level hackathons**, engaging students and developers from across the country.
- **Planned** and **conducted** multiple technical seminars, webinars and workshops on emerging technologies.

AWARDS & ACHIEVEMENTS

- **Winner, Smart Delhi Ideathon:** Secured 1st place among 1000+ teams for an AI-based traffic optimization system, awarded by the **Lieutenant Governor of Delhi**.
- **Runner-Up, NHAH Hackathon 2025:** Ranked 2nd out of 138 entries for an AI-powered highway maintenance solution.
